SUBJECT: Photo Facilities Kazan, USSR

Amount and date of expansion of the Kazan photo facilities arranged in a chronological order:

Kazan Film Plant #8 is irregular in shape with the major axis extending WSW-ENE.

25X1D Overlay I, Figure 2 - The overlay outlines the film plant boundary and major structures that were present in 1942. The plant at this time had approximately 46 major structures that could be observed within the plant boundary.

25X1D Overlay II, Figure 2 [REDACTED] - The film plant boundary has been enlarged and approximately 48 new structures have been added and five more are under construction.

Overlay III, Figure 3 [REDACTED] - Again the film plant boundary has been enlarged and the addition of 15 new structures can be seen.

Kazan Photogelatin Plant #9 is rectangular in shape and is W by S - E by N.

25X1D Overlay I, Figure 2 - The overlay outlines the photogelatin plant boundary and major structures that were present in 1942. The plant at this time had approximately 20 major structures that could be observed within the plant boundary.

25X1D Overlay II, Figure 2 [REDACTED] - The plant boundary has not changed but there has been 16 new structures built.

Overlay III, Figure 3 [REDACTED] - The plant boundary has remained the same, four new structures were added and another is under construction.

Optical Equipment Plant #237 is irregular in shape with the major axis extending NNW-SSE.

25X1D Overlay IV, Figure 4 - The overlay outlines the optical equipment plant boundary and major structures that were present in 1942. The plant at this time had approximately 15 major structures that could be observed within the plant boundary.

Overlay V, Figure 4 [REDACTED] - The optical plant boundary has been enlarged and approximately 32 new structures have been added. There are two areas adjacent to the plant that are under construction.

SUBJECT: Photo Facilities Kazan, USSR

25X1D

Overlay VI, Figure 5 [REDACTED] - The plant boundary has now been enlarged to enclose one of the areas under construction in 1960. Two new structures have been added to the main production area. The other area under construction in 1960 has now been completed and separately fenced.

1. Security and Housing - The overall appearance of the security precautions at the photo facilities are no different than those observed at the majority of industrial installations in the USSR. New apartment projects have developed along with the photo facilities.

25X1A

3. The photo analyst assigned to this requirement was [REDACTED] who may be contacted on extension 2934 should any question arise concerning this memorandum. This memorandum and attachments complete this requirement.
